

Keeping TABS on the Thin Veneer Industry

TABS WALL SYSTEMS, LLC

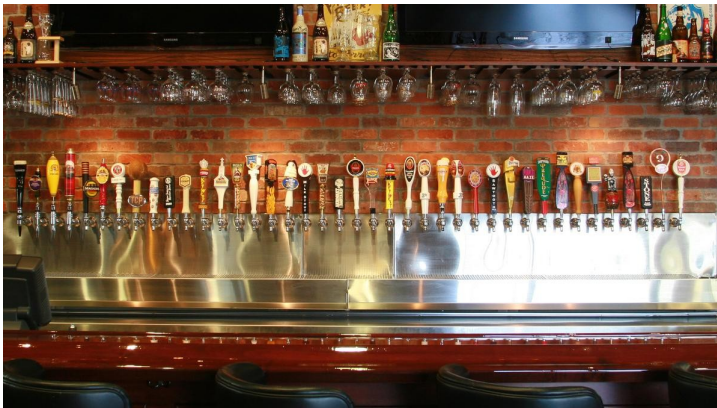

Interior Installations – The TABS Wall System

1st Quarter 2016

While used extensively in exterior applications for projects ranging from hotels to shopping malls to retail and high rises, the **TABS Wall System** is an excellent choice for interior applications as well.

CROCKER PARK

The **TABS Wall System**, offers a G-90 galvanized, paint coated and produced from a higher grade of steel than any other manufacturers in the market. In addition, the TABS Wall System's use in interior applications is supported by independent testing with a 2-hour fire rating, flame spread and smoke development indexes of zero (0). In addition, and highly critical in many interior applications, the **TABS Wall System** meets acceptance criteria and resists fungal contamination.
